

Use LinkedIn to Connect with Alumni

LinkedIn provides an Alumni Tool that can be used to find alumni in your area.

With the Alumni Tool, you can use the “Where They Live,” “Where They Work,” and “What They Do” tools to narrow your searches to alumni in your area, then to specific employers or fields.

This tool is particularly helpful when:

1. Engaging and connecting with alumni in your area
2. Finding local alumni speakers for events
3. Identifying interests and connections among the alumni in your area

To access LinkedIn’s Alumni Tool, find “My Network” in the toolbar, then click on “Find Alumni.”

From there, you will access the Alumni Tool.
